

Oracle Database Administrator & RAC Subject Matter Expert (11-12 Years Experience)

About Us

Smartedge Technologies Private Limited is a leading provider of managed IT services, specializing in keeping our clients' mission-critical Oracle databases running smoothly and efficiently. We're a passionate team dedicated to delivering exceptional service and innovative solutions.

The Role

We are seeking a highly experienced Oracle Database Administrator (DBA) and RAC Subject Matter Expert (SME) to join our growing team. You will be a critical member of our infrastructure team, providing deep technical expertise and strategic guidance for all aspects of our clients' Oracle environments, with a particular focus on Oracle Real Application Clusters (RAC).

Responsibilities:

- **Database Administration:**
 - Install, configure, manage, and optimize Oracle databases (11g, 12c, and higher) across client environments.
 - Perform ongoing database maintenance tasks, including backups, recovery, patching, and performance tuning.
 - Implement and enforce robust security measures to ensure the confidentiality, integrity, and availability of data.
 - Monitor database health, identify and troubleshoot performance issues, and proactively implement solutions.
 - Automate database administration tasks using scripting languages (PL/SQL, Python, etc.).
 - Provide technical guidance and support to developers and application teams.
- **RAC Expertise:**
 - Design, configure, and manage Oracle RAC environments for high availability and scalability.
 - Troubleshoot complex RAC issues, including instance failures, cluster communication problems, and resource management challenges.
 - Optimize RAC performance to ensure maximum uptime and efficient resource utilization.
 - Stay current on the latest RAC features and best practices.

Qualifications:

- 11-12 years of experience as an Oracle DBA with a proven track record of success in managing complex database environments.
- In-depth knowledge of Oracle database architecture, administration tools, and utilities (*SQLPlus*, *SQLLoader*, Data Pump, etc.).
- Expert-level understanding of Oracle RAC concepts, configuration, and troubleshooting techniques.
- Experience with Oracle Automatic Storage Management (ASM) and Oracle Data Guard for high availability and disaster recovery solutions.
- Strong understanding of database security principles and best practices.
- Excellent problem-solving and analytical skills with the ability to diagnose and resolve complex database issues.
- Exceptional communication and interpersonal skills, with the ability to explain technical concepts to both technical and non-technical audiences.
- Ability to work independently and as part of a team, collaborating effectively with internal and external stakeholders.
- A passion for database technology and a strong desire to stay up-to-date with the latest Oracle advancements.
- Oracle OCP certifications (OCP DBA, OCP RAC Administration) are a strong plus.

Benefits:

We offer a competitive salary and benefits package, including health insurance, dental insurance, vision insurance, paid time off, and opportunities for professional development. Additionally, you will be joining a dynamic team in a fast-paced environment, where your expertise will be valued and your contributions will make a real difference in ensuring our clients' Oracle databases are always reliable and performant.

To Apply

If you are a highly skilled Oracle DBA and RAC SME with a passion for technology and a commitment to exceptional service, we encourage you to apply! Please submit your resume and cover letter for a chance to join our team.
